Docket No. K-210

**AMENDMENTS TO THE CLAIMS:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

1. (Previously Presented) A method for displaying a reservation guide/confirmation screen in a tv, comprising:

displaying a reservation guide screen if a user selects a reservation mode;

setting the user's desired reservation state using a predetermined key on the reservation guide screen; and

displaying a reservation confirmation screen if the user selects a reservation confirmation mode in a two dimensional grid, a first dimension representing a plurality of days and a second dimension representing times of a day.

2. (Currently Amended) The method of claim 1, wherein displaying the reservation guide screen further ~~[[comprising]]~~ comprises displaying a date selected by the user on a horizontal axis and displaying a time on a vertical axis at a certain interval.

3. (Currently Amended) The method of claim 1, wherein setting the user's desired reservation state further ~~comprising~~ comprises selecting a desired date and a desired time from a two dimensional grid having dates on a first axis and times on a second axis using the predetermined key, displaying a program list corresponding to the selected date and time, selecting a desired program from the program list, and setting whether to perform reservation recording or reservation viewing on the program list.
4. (Previously Presented) The method of claim 3, wherein displaying the program list further comprises simultaneously displaying a plurality of icons for selecting at least one of each channel number corresponding to the date and time zone selected by the user, a broadcasting station name, a program title, and reservation recording or reservation viewing of each channel.
5. (Previously Presented) The method of claim 4, wherein displaying the program list further comprises displaying at least one of a channel number corresponding to the date and time selected by the user, a broadcasting station name, and a program title on a sub screen at a prescribed location of the reservation guide screen.

6. (Previously Presented) The method of claim 3, wherein the predetermined key comprises at least one of up/down keys and left/right keys.

7. (Previously Presented) The method of claim 3, wherein setting the reservation recording or reservation viewing state further comprises moving a cursor to the user's desired program on the program list using the predetermined key, and selecting the reservation recording or reservation viewing state on the user's desired program using the predetermined key.

8. (Previously Presented) The method of claim 1, wherein displaying the reservation confirmation screen comprises displaying a day on a horizontal axis, displaying a time zone on a vertical axis at a prescribed interval, and displaying a reservation state of a program selected by the user at the day and corresponding time selected by the user in a timetable type.

9. (Previously Presented) The method of claim 8, wherein displaying the reservation state of the program selected by the user comprises the displaying a set state of the reservation recording or reservation viewing program selected by the user on a portion where the corresponding day crosses the corresponding time zone.

10. (Currently Amended) The method of claim 8, wherein displaying the reservation state of the program further ~~[[comprising]]~~ comprises displaying a background of a portion where the corresponding program title is displayed at the day and time selected by the user, the background being one of a plurality of colors set in accordance with a selection of reservation viewing, reservation recording, and simultaneous selection of the reservation viewing and the reservation recording.

11. (Previously Presented) The method of claim 8, wherein displaying the reservation confirmation screen further comprises displaying a consecutive reservation indicator on a prescribed portion of the corresponding selected program if user selects the consecutive reservation on the reservation confirmation screen.

12. (Previously Presented) The method of claim 11, wherein displaying the consecutive recording indicator further comprises displaying a separate symbol on a lower portion of the portion where the corresponding day crosses the corresponding time zone.

13. (Previously Presented) The method of claim 1, wherein the reservation confirmation screen indicates blocks of time on prescribed dates during which a reservation event is scheduled.

14. (Previously Presented) The method of claim 2, further comprising displaying a currently selected date and currently selected time on a prescribed portion of the screen.

15. (Currently Amended) The method of claim 3, wherein said setting the user's desired reservation state further ~~[[comprise]]~~ comprises selecting a cancel option.

16. (Currently Amended) The method of claim 6, wherein setting the reservation recording or reservation viewing state further ~~[[comprise]]~~ comprises moving a cursor to the user's desired program on the program list using the up/down keys, and selecting the reservation recording or reservation viewing state on the user's desired program using the left/right keys.

17. (Currently Amended) A method of displaying a reservation confirmation screen for a multimedia device, comprising:

forming a grid display of a reservation confirmation screen having a first axis representing time of day and a second axis representing a plurality of days;

determining a list of events to be displayed on the grid display according to a user's selection of events from a channel guide, wherein the event is a television program;

and

displaying events from the list of events on the grid display at a position corresponding to a day of the event and a time of the event, wherein the time begins at a starting time of the event and ends at a completion time of the event.

18. (Currently Amended) The method of claim ~~[[16]]~~ 17, wherein a background color of the event display indicates one of reservation viewing, reservation recording, and simultaneous selection of the reservation viewing and the reservation recording for the corresponding event.

19. (Canceled).

20. (Canceled).
